**Опис
вакансії**

PortaOne is looking for a Middle/Senior C++ developer in Kyiv office.

PortaOne is a leading global communication infrastructure vendor. We develop and sell carrier level software platform, allowing our customers (Internet telephony service providers) to deliver a wide range of solutions for their services.

We offer:

• interesting and challenging work

• convenient office location - business center near metro station Kontraktova

• flexible working hours

• free lunch and English lessons

Responsibilities:

• development and optimization of PortaSIP components

• reviewing and extending functionality and capabilities of existing components (for instance improvements in terms of better scalability, failover, reliability, etc.)

• providing assistance for support with application issue troubleshooting

• proactive participation in discussion/design of new components/features/solutions which appear while PortaSIP/PortaSwitch evolves

Requirements:

• 4+ years in software development

• 3+ years of experience in C/C++

• experience in working with Linux systems

• good knowledge of OOP, OOD principles

• strong understanding of network technologies and protocols (OSI model, NAT, DNS, IPv4/IPv6, TCP/UDP)

Additional skills:

• experience with VoIP, VoLTE technologies

• knowledge of SIP, WebRTC, Radius, Diameter protocols

• experience with python, shell scripting
