Опис вакансії

Our partners in Hong Kong have an open position with relocation.

Software Engineer (Security with FinTech exposure)

Full-time, relocate to Hong Kong

Test driven development/unit testing

Agile development methodology

Job Description

We are currently seeking software engineers to join our industry-leading security and IAM team. As Hong Kong and Asia are seeing significant growth as a FinTech hub, we are seeking security specialists focused on access security for new entrants in the virtual banking and online financial services space. This position's primary responsibility is to provide system design and development activities to support our client's implementation of a full spectrum of identity and access management solutions, including single sign-on (SSO), strong authentication, password management, unified access management (UAM), know your customer (KYC) technologies, customer consent/authorization/privacy management and Fast ID Online (FIDO) security specifications.

Key Responsibilities

- Implement and test program modules that meet design specifications
- Troubleshoot and debug issues that arise during self-inspection and system tests
- Prepare deployment guidelines and operation procedures
- Maintain technical documentation
- Assist security review audit and assessments for production readiness

Requirements

- Degree holder preferably in Computer Science or Engineering
- 3+ years of IT system development experience
- Strong knowledge of Java, Spring Boot, PostgreSQL/MySQL, Git/Mercurial
- Familiarity and systems/application development experience in the following technologies are preferred: CTAP, FIDO, JSON, LDAP, MySQL, OATH, OpenID, OIDC, SAML, Tomcat, UAF/U2F, UMA, WebAuth
- Good understanding of client side and server side architectures
- Experience working with Agile methodologies
- Ability to work independently and be a team player
- Ability to learn other programming languages/product solutions as needed

Will be a plus

ReactJS, Vue.js, Node.js, Angular experience, AWS experience, Linux administration skills.
