Опис вакансії

Who we are?

We are a Ukrainian software company with 15-years developing experience. Our customers are big enterprise projects from the USA.

About the project:

Our project is a system that simplifies and efficiently manages processes in 200+ healthcare organizations in the USA. The cloud-based platform uses a blockchain type of mechanism that connects all entities associated with a provider with the same real-time data collection, which is automated, updated, easily accessed, and securely protected.

Requirements:

- at least 2+ years of commercial experience with Angular 6+
- at least 2+ years of commercial experience with JavaScript, CSS3, HTML5
- REST APIs
- Bootstrap v4
- experience or even good knowledge in designing and implementing a large-scale web application
- English: Intermediate+

Will be a plus:

- good understanding or experience with NodeJS
- good understanding or experience with GraphQL
- good knowledge of relational databases
- unit-testing skills- Mocha, Chai, Karma, qUnit
- understanding Agile methodologies and software development life cycles
- experience with AWS services

Responsibilities:

- Along with a team of highly skilled professional engineers, you'll be:
- designing and developing new features of an existing cloud solution
- manage technical requirements, work on API specs, add automation, conduct code reviews and engage in testing efforts
- participation in team code review/discussions/modeling
- communication with the customer's team

We offer:

- Interesting full-time position in a really friendly team
- Competitive compensation
- Flexible work schedule
- Progressive management style
- Experienced colleagues who are ready to share knowledge

- Individual approach to professional and career growth
- Foreign business trips
- 3 health packages to choose
- Paid vacation and work from home days
- Free lunches, drinks
- No dress-code
- Parking
- Corporate gifts, celebrations, and fun activities
- Sports activities: Tennis, Soccer

If you are looking for a position to work on projects which make an impact in the world, work with new hot technologies, large cloud enterprise projects in a big friendly team where you can apply all your skills and grow professionally further - send us your CV!
