Рубрики: IT, WEB фахівці

Побажання до співробітника

Освіта:	не має значення
Досвід роботи:	від року
Графік роботи:	повний робочий день

Опис вакансії

UKEESS Software House — Ukrainian IT software development company, specializing in big cloud enterprise projects from the USA: health, biotech, logistics, CRM systems, fin-tech, etc. Founded in 2004 in Lviv, we have grown almost to 100 talented Software Engineers, and this number continues increasing every month.

And now we are currently looking for a Strong Junior Angular Developer to join our ambitious team for the full-time position in Lviv.

About our project:

Our customer is the world's largest DNA network from the USA which helps people discover their family stories. With more than 24 billion digitized global historical records, 100 million family trees, and 16+ million people in their growing database you can find relatives all over the world and explore new interesting and personal stories about your ancestors and the lives they lived, and more.

Technology stack: Angular2+/HTML5/CSS3/SASS/JS/ES6/TypeScript/RxJS/jQuery

Along with a team of highly skilled professional engineers, your duties will be next:

- translating our company and customer needs into a functional and appealing digital environment, ensuring the great user experience
- writing a high quality, testable and reusable code
- designing and coding web applications using the latest stack
- participating in team code review/discussions/modeling
- communication with the customer's team

Whom are we looking for?:

- at least 1+ year commercial experience with Angular 2+
- experience with HTML5 & CSS3, SASS
- strong debugging skills
- good logical thinking in debugging, tuning, and optimizing UI components
- experience with GIT experience
- English: intermediate+

Will be a big plus if you will have:

- experience in building and consuming JSON-based RESTful APIs
- good understanding of RequireJS, RESTful services, and any kind of SPA JavaScript framework
- experience with responsive design
- unit-testing skills- Mocha, Chai, Karma, qUnit
- understanding of Agile methodologies and software development life cycles

What do we offer our new colleague?

- interesting full-time position in a highly professional team and friendly company
- competitive compensation (also depending on the technical level of the candidate)
- flexible work schedule
- individual approach to a profession
- free English classes (online)
- 3 health packages to choose
- annual paid vacation and state holidays celebration
- lack of bureaucracy and micromanagement

After the pandemic in our office you will have:

- modern, comfortable office facilities (a barbecue zone, kitchens, company paid lunches, lounge rooms, coffee machines, etc.)
- foreign business trips
- on-site parking lot and charge station for Electric Cars
- corporate gifts, celebrations, and fun activities
- sports activities: ping-pong, soccer, work-out

If you are looking for a position where you can work on a modern project in a big friendly team where you can apply all your skills and grow professionally further — send us your CV and let's get to know each other! ;)
