## Опис вакансії

UKEESS Software House is currently looking for a Middle Java Developer for the full-time position in Lviv, Ukraine to join the company's ambitious and life-changing projects.

About our Client and Project:

Our project is the world's largest DNA network in the world and helping people find the singular story in their DNA. The foundation of service is an extensive collection of billions of digital records, documents and digitized DNA combined with modern search technologies, tools, and collaboration features. All that enabled more than two million subscribers to create over 16 billion historical records, along with millions of DNA results to make meaningful discoveries.

## Requirements:

- At least 2+ years of commercial experience in Java 8+
- Strong knowledge and experience with MySQL or SQL Server
- Strong knowledge of OOP, design patterns
- Spring, Reactive Spring
- Tomcat, Jetty, Netty
- IDE: IntelliJ
- Maven, Groovy.
- CI/CD: Jenkins
- English: Intermediate+

Will be a big plus:

- Non-blocking I/O
- An acquaintance in AWS, Docker, and Kubernetes
- Agile methodologies and software development life cycles

What we offer:

- Interesting full-time position in a new team and friendly company
- Competitive compensation
- Flexible work schedule
- Progressive management style
- Individual approach to professional and career growth
- Foreign business trips
- 3 health packages to choose
- Paid vacation and work from home days
- Free lunches, drinks
- No dress-code
- On-site parking lot (with charge station for Electric Cars)
- Corporate gifts, celebrations, and fun activities
- Sports activities: ping-pong, soccer, work-out

If you are looking for a position to work on projects which make an impact in the world, work with new hot technologies, large cloud enterprise projects in a big friendly team where you can apply all your skills and grow professionally further - send us your CV!

We are always happy to meet new colleagues and their new ideas!
