Опис вакансії

Golang Developer / Trainee

DO NOT APPLY IF YOU DO NOT SPEAK ENGLISH!

We're looking for experienced Golang developers!

Job Responsibilities:
- Study the principle of blockchain, operation mechanism and relevant algorithms.
- Take part in the design, development and testing of blockchain products.
- Solve problems during development, testing and provide technical support for products.
- Write technical documentation for products.

Job Requirements:
- Hold a bachelor's degree or above in computer science, comprehend and use English well, and be able to read and analyze code.
- Be passionate about programming, have a desire to perfect your craft, and be interested in the blockchain technology.
- Be proficient in Golang and show good habits such as documentation and proficiency in file compilation.
- Developing on Linux is preferable, OSX is the next best.
- Master the technique in data structure and algorithm, be proficient in network programming, and be familiar with network protocols such as TCP / IP, HTTP and P2P.
- Think clearly, work well in a team, take initiative, and seek continuous improvement.

Strong candidates will be required to undergo a screening test, if successful they will then be hired on a probationary period.
We are looking for 5-10 people depending on the talent available.
This position will be remote
