Опис вакансії

Independent provider of multi- and cross-asset, broker-neutral solutions for electronic, algorithmic and high-frequency trade analysis, management and execution of global equities, futures, options and forex. We deliver high-performance technology with high-touch assistance and support.

For its Dnipro location, we are looking for talented System Administrator interested in a challenging and diverse role in a team of like-minded enthusiastic people with strong technical and customer service skills.

RESPONSIBILITIES

- Interacting with traders, developers, electronic trading counterparties, pricing feed vendors to efficiently resolve production issues.
- Product installations and customization according to user needs.
- Electronic trading connectivity certification, configuration, troubleshooting.
- Creation and maintenance various Perl/BeanShell/Groovy scripts (desired)

QUALIFICATIONS

- Solid experience with MS Windows and Linux environment.
 - System administration/DevOps experience is a huge plus
 - Fluent written and spoken English.
 - Knowledge and experience with Java and some scripting language is a plus.
 - Ability to handle multiple tasks in a fast paced and dynamic environment.
 - Must be analytical, creative, detail-oriented, self-motivated.
- Business trips to headquarters in Chicago, IL
 - Comprehensive compensation package with annual performance reviews
 - Work in the successful and solid company (20+ years in business). One of the leaders in the industry. Multiple trillions of dollars in assets are traded annually through our software.
 - Friendly team and zero bureaucracy. People tend to stay with us for many years.
 - Comfortable office in the city center
 - Multiple additional perks: health insurance program, English courses, continuing education allowance etc
