The mission of the Shopify Frontend Developer is to implement custom templates for the 10 websites of the company and manage the Company Websites Improvement Plan.

The Shopify Developer will have opportunities to grow as Company CTO.

- You will work on 90 days plans
- The first 90 days will be dedicated to implementing the Company's Custom Template for the 10 websites owned and operated by the Company
- The next 90 days will be dedicated to implementing various improvement plans on features, UI / UX to provide a better experience to users
- Assess and decide on the priorities
- Manage additional resources as needed

The success of this job will be measured by the speed of delivery and the quality of the coding / features in place.

The ideal profile is already an experienced Shopify Frontend or FullStack Developer.

Excellent professional English is mandatory.

Good ability to manage deadline and manage freelancers.

Strong work ethics.
