Опис вакансії

Вимоги:

C++ / Linux Developer

Fluent supplies ultra-low-latency financial backbone systems to tier-1 banks in EU and US. These systems allow the bank to serve multiple algorithmic traders, supplying market access and trading, risk management, price adaptation, liquidity aggregation etc.

Fluent is currently a leading software provider in that competitive market, adding customers rapidly while expanding our product.

Responsibility will include

- Leading a module / subject
- Giving a hand with emergencies in other modules (i.e. you will be familiar with the entire system)
- Going full cycle, from spec through design and coding to unit tests
- Developing supporting scripts and tools

Desired Skills & Experience

2 years or more of development experience, mainly C/C++

Basic Knowledge in Linux environment.

Scripting experience (Bash or Python)

Good English

Advantage

Experience in the financial industry and algorithms (FIX, SBE, Forex, Fixed income)

Background in automation projects (simulators, Jenkins, CI, comparison and analysis)

Multithreading background

Experienced in High-performance software systems, code optimization and latency measurement.

Exposure to a wide range of systems, software and libraries
