### Опис вакансії

**Mobiwolf** is looking for two quality oriented, creative and inventive **QA engineer**. You will be a part of the team working at mobile application development projects for the UK and the USA clients.

Taking into consideration the current war state and energy crisis in Ukraine, we are forced to be as **flexible and adaptive** as we can. This is because our aim is to keep strong and guaranty in time delivery of quality service to our clients in any ways. The range of possible **extraordinary options could be as following**:

- Working mode - freelance, remote
- Working place - from home, from office, mix, outside/inside Ukraine
- Energy Equipment - UPS, inverter + accumulator, power bank, generator
- Internet - cable, mobile 4G, Starlink

### Responsibilities:

- writing test cases,
- testing mobile applications,
- logging errors in tracking systems,
- reports

### Must have:

- Knowledge of modern requirements to Android and iOS apps
- Good skills in Android and iOS apps testing
- Knowledge of SDLC, STLC
- English - intermediate

Apply by sending your full CV with your hourly rate (\$/hr)
