Job Title: UX/UI Designer

Company: RI Software

Location: Remote

About the Company:

RI Software is a cutting-edge software development company revolutionizing the industry with our innovative web applications. Our ecosystem comprises various dynamic web services, including a retail marketplace, a wholesale marketplace, a business management service, and a job offering service. We aim to empower businesses to thrive by streamlining operations and facilitating seamless data sharing across our services.

Job Description:

We are seeking a talented and experienced UX/UI Designer to join our remote team. As a UX/UI Designer, you will be responsible for creating visually appealing and user-friendly interfaces for our web applications. Your designs will play a critical role in shaping the user experience and overall aesthetics of our revolutionary system.

Responsibilities:

- Collaborate with product managers and developers to understand project requirements and user needs.

- Create wireframes, mockups, and prototypes to effectively communicate design ideas and interactions.

- Design user-friendly and visually appealing interfaces that align with the company's brand and design guidelines.

- Conduct user research and usability testing to gather feedback and iterate on design concepts.

- Ensure seamless and intuitive navigation through information architecture and interaction design.

- Collaborate with front-end developers to ensure the successful implementation of designs.

- Stay updated on the latest UX/UI design trends and best practices, applying them to enhance our applications continuously.

- Advocate for user-centered design principles, championing the user's perspective in design decisions.

- Assist in the creation and maintenance of design documentation and style guides.

Compensation:

As a UX/UI Designer at RI Software Company, you will be compensated through our partnership model. We do not offer a traditional salary but instead provide a unique opportunity for partnership and profit sharing.

You will have the chance to be a co-owner of our company and benefit from the success and growth of our business. Further details regarding the partnership structure and profit sharing will be discussed during the interview process.

Qualifications:

- Proven experience as a UX/UI Designer, with a strong portfolio showcasing previous design projects.

- Proficiency in design and prototyping tools such as Adobe XD, Sketch, Figma, or similar.

- Solid understanding of user-centered design principles and best practices.

- Ability to conduct user research, gather insights, and apply feedback to improve designs.

- Strong understanding of responsive design and designing for various devices and screen sizes.

- Familiarity with front-end development principles and collaboration with development teams.

- Excellent visual design skills with an eye for aesthetics, layout, and typography.

- Strong problem-solving skills and the ability to work independently as well as collaboratively in a remote team environment.

- Excellent communication skills and the ability to effectively convey design concepts to stakeholders.

How to Apply:

Interested candidates are encouraged to submit their resume, portfolio, and any relevant work samples via the test questions link:

We appreciate all applicants' interest, but only those selected for an interview will be contacted.

Additional Information:

- This is a remote position, offering flexibility and the opportunity to work from anywhere in the world.

- Working hours are flexible, with an average expectation of approximately 14 hours per week based on task completion.

- Developer meetings are held every Monday and Friday at 2.30pm New York time zone for front-end and back-end developers, respectively.

- Daily reports with 2-3 sentences about the day's activities and a short video demonstration must be submitted by 3 pm New York time zone.

We look forward to reviewing your application and discussing the opportunity further.
