## Опис вакансії

**SoundCampaign** is a growing IT product company, that creates services for independent music artists all over the world and helps them to promote their music.

We are looking for a person to be part of the product team and assist with gathering requirements and maintaining product documentation.

If you are a motivated **Business Analyst** with 1+ years of experience, intermediate English skills, and a product-oriented mindset, and if you have experience gathering requirements, communicating with developers, and maintaining product documentation, we would love to hear from you. Please submit your resume and a cover letter highlighting your relevant experience and why you believe you would be a great fit for our team.

## Skills required for the position:

- Analytical mindset: Strong analytical and problem-solving skills to identify requirements gaps and propose effective solutions.
- Effective communication: the ability to gather requirements from the product team and deliver information in a clear and structured way that is easy to understand by the entire team.
- Software development understanding: Familiarity with SDLC and Agile methodologies to effectively communicate and finalize requirement details with developers.
- Attention to detail: Meticulous approach to keeping product documentation updated with all necessary details after releases.
- Self-organization and coordination: Ability to manage personal workflow, coordinate communication with various stakeholders, and ensure timely completion of tasks.

## Responsibilities:

- Requirements gathering: Work closely with the product team to gather comprehensive requirements for our product updates.
- Communication with developers: Collaborate with developers to confirm and finalize all required details and ensure a clear understanding of the expectations.
- Documentation management: Keep product documentation up-to-date with all necessary details after releases, including changes and updates made during the development process.
- Clear and structured information delivery: Present information in a clear and structured way that is easily understandable by all team members, including developers, product managers, and stakeholders.

## Benefits:

- Healthy working environment: Enjoy a positive and supportive workplace culture that fosters collaboration and personal growth.
- Growth opportunities: Opportunity to grow within the company, with potential for advancement to a Product Manager role.
- Flexible and friendly work approach: Emphasis on work-life balance with flexible working arrangements.
- Product-oriented team: Join a motivated team focused on creating great products
