Join the CML Team: Where Your Engineering Talent Takes Center Stage

Dive into an exciting opportunity at CML Team, where you'll not only contribute to pioneering projects but also become an integral part of our success story. In our collaborative environment, you'll work alongside international experts, expanding both your technical prowess and soft skills, all while being at the forefront of employing best practices in the industry.

Why You Should Be Excited:

- **Competitive Rewards:** We offer a salary that recognizes your expertise, alongside opportunities for growth through internal training and hackathons. Our management team is dedicated to supporting your career progression.

- **Balance and Well-being:** With 20 paid vacation days and sick leave, we ensure that you enjoy a healthy work-life balance, recognizing the importance of time off for personal well-being and creativity.

Who We're Looking For:

- **Experienced Developers:** You should have a solid background in software development, with particular strengths in Node.js, React, Redux, Hooks, or Angular. Your experience with SQL databases and understanding of both client-side and server-side architectures will be crucial.

- **Communication Skills:** Fluency in English is essential for effective teamwork across our global operations.

Extra Points for:

- **Advanced Skills:** Experience with NoSQL databases and cloud platforms like AWS and Google Cloud will make your application stand out. Knowledge of additional backend languages (C#, Java 8+) and familiarity with Vue or other frontend frameworks will showcase your versatility.
