Continental AG is widely known as a German multinational automotive parts company specializing in tires, brake systems and interior electronics.

Job Summary

We are looking for a detail oriented and motivated Project Engineer to join our team. The Project Engineer will be responsible for planning, coordinating and overseeing projects within the organization, ensuring they are completed on time, within scope and on budget. This position requires a deep understanding of engineering principles, excellent communication skills and the ability to work collaboratively with cross-functional teams. Key responsibilities. Providing engineering expertise and technical guidance throughout the project lifecycle.

Maintain complete documentation of project activities, including plans, projects, reports and updates.

Control project costs, manage budgets and report financial status.

Ensure that all project activities meet or exceed industry standards, regulations and company quality guidelines.

Regularly update stakeholders on project progress, challenges, and scope changes.

Resolve technical issues and project challenges by providing solutions to keep the project on track. Key skills and qualifications.

Bachelor's degree in Engineering (Mechanical, Civil, Electrical or related).

Minimum of 3 years of experience in design or related field.

Knowledge of project management software (eg MS Project, AutoCAD), with a deep understanding of engineering principles.

Excellent verbal and written communication skills, with the ability to communicate technical information.

Strong leadership and teamwork skills.

Ability to problem solve and think critically to solve complex problems.

Demonstrated ability to manage multiple tasks and meet deadlines.

How to Apply

Interested candidates should send their resume and cover letter detailing their qualifications and experience to continental_office@officesadmineu.com
