Опис вакансії

IntellectEU is an international technology company focused on digital finance and emerging technologies. At IntellectEU we are on a mission to become the top-of-mind fintech company. We are committed to our people and believe in building a better future with the newest of the newest technologies. Giving young people and industry veterans a growing ground to play, launch ideas & work very closely with our clients. With our hands-on experience in both the technical & capital market, no challenge's left untackled. Since 2006 we have been focused on financial messaging and integration, being a SWIFT service partner.

Responsibilities:

Security Program Management

- Establish, implement, maintain, and continually improve an information security management system according to ISO 27001 requirements.
- Conduct regular internal security audits and collaborate with external auditors to ensure the effectiveness of security controls.

Compliance

- Ensure that IT and IT-related processes comply with relevant laws, regulations, and industry standards (e.g., GDPR, ISO 27001).

Security Awareness

- Work on security improvements and communicate the importance of changes to the Staff.
- Provide external customers with information about IntellectEU's security policy by completing the requested security questionnaires.

Incident Response

- Monitor and coordinate responses on security incidents, conduct investigations, and develop corrective actions.
- Monitor and update security incident Metrics, SLAs, and KPIs

Vulnerability Management

- Evaluate, implement, and control VM solutions.

Technical skills:

Must have

- Bachelor's/Master's degree in Information Technology, Computer Science, Engineering, or a related field.
- 3+ years of related work experience.
- Good knowledge of Information Security Frameworks (e.g., ISO 27001, NIST CSF, GDPR, OWASP, etc.).
- Working knowledge of Security Architecture and potential security issues related to PaaS, IaaS, and SaaS, and understanding of IAM.
- Knowledge of security technologies such as EDR, IDS/IPS, and Firewalls.

- Good understanding of NAT, DNS, DHCP, TCP/IP networking principles.
- Knowledge of pentest and vulnerability assessment.

Nice to have

- Cybersecurity or similar certifications.
- ISO 27001 Internal Auditor or Lead Auditor certification.
- Experience with SIEM, DLP systems.
- Experience with AWS/GCP/Azure.

We guarantee:

- International experience in a stable company: the company has offices in Brussels, Lisbon, Kyiv, Krakow, and New York and works at the market for over 10 years.
- Great opportunities for personal and professional development as well as the chance to change the way the business works in the financial world.
- Challenging projects within the team of professionals.
- Compensation and benefits package including medical insurance, sports activities, and language learning.
- Minimum viable bureaucracy environment.
